Twin-Chem No Odor is "*the*" choice for economical, fast acting, no odor mastic remover. This product is designed with a superior surfactant system that allows for easy rinsing and final cleaning. This product will get the job done with fewer odor complaints while being extremely cost effective.

Directions:

1. Read and understand material safety data sheet when using this product.
2. Cover and dike walls, woodwork, drains and cracks.
3. Apply Twin-Chem No odor over all black mastic and adhesives. This may be done manually or with garden sprayer to 5' x 5' square areas.
4. Use a stiff bristled broom to agitate over the area. More than one application may be necessary.
5. Allow as little time as necessary to let Twin-Chem No Odor penetrate and soften adhesive.
6. After the mastic is dissolved, use a squeegee to clean up liquefied mastic and dispose of properly. The use of absorbents may aid in this process.
7. Aggressively clean surface with water and **Pronto Extra Wetter wetting agent** detergent for best results. Allow the surface to dry a minimum of 24-36 hours before applying new mastic and new flooring.
